Team size 4

FRONT-END DEVELOPER

- Contributed to performance optimization for both backend and frontend systems.
- TFlat is a well-known translation application for many users. By using Figma, I participated in improving and refining the UI/UX.
- Understand the lifecycle of an application from inception to operation.
- A standout feature of the application is the integration of review and writing practice through a word-matching interface, helping users effectively improve their language skills.

EDUCATION

08/2020 - 12/2024

SOFTWARE ENGINEERING

Industrial University of Ho Chi Minh City

Scholarship 2022-2023

CERTIFICATIONS

04/2024 - 06/2024

Docker Certification
